

# Hurricane Preparedness Checklist

**Medical Supplies:** Have at least 30 days worth of medicine and medical supplies set aside. Prescriptions should be filled well before the storm hits.

**Money:** Have cash on hand. With no electricity or power, ATMs and credit cards will not work.

**Car & Gasoline:** Fill up your vehicle and possibly a gas can. If the power goes out, you will be unable to get gas. Also, if you have a generator, fill it up with gas.

**Batteries & Communication:** Make sure that cell phones, tablets, radios, etc are all fully charged and that there are backups of batteries.

**Food & Water:** There should be enough food and water to last each person for a week.
